About TrackInsight

TrackInsight™ is the world's first Exchange-Traded Funds analysis platform. We serve the global ETF investment community by providing daily data and in-depth analytics on over 6,200 ETFs listed worldwide, alongside powerful ETF screening and selection tools and independent insights into the global ETF market. In addition, TrackInsight creates multi-media content that is focused on the needs and interests of institutional ETF investors, including in-depth research studies, thought-leadership materials and a series of investor events in Europe and North America.

Your Missions

- Communicate with world's largest ETF issuers and accelerate cooperation
- Support independent ESG analysis on +5000 ETFs
- Participate in the deployment of factor exposure & style analysis
- ETF market observation
- Platform development to onboard ETC/ETN

Requirements

- A strong interest in the financial markets and asset management
- Excellent knowledge of Microsoft, especially Excel
- Excellent command of French **and** English
- Strong ability to work in a team and good communication skills

Applicants must be **rigorous** and demonstrate an **interest in applied problems**.

They should acquire an ability to explain complex topics in simple terms such as the evaluation processes of ETF performance, of their underlying indices as well as negotiation mechanisms.

Enthusiastic? Please send us your CV and cover letter to the following address careers@koris-intl.com.

We are looking forward to meeting you!
